The UCF Report

Volume 8, Number 22

For Faculty and Staff

December 18, 1985

Larger than life

Likenesses of UCF's newly-enrolled National Merit and Achievement Scholars are featured on a 44-foot long billboard near the airport off the Beeline Expressway. The billboard, offered free as a

public service by Peterson Outdoor, acknowledges UCF's success in attracting twice as many freshman National Merit and Achievement Scholars as last year.

Football stays, debt slated for \$250,000 cut

With all indicators pointing towards a \$250,000 reduction in UCF's athletic deficit by the end of the current fiscal year, Head Football Coach and soon-to-be Athletic Director Gene McDowell met the press Tuesday to announce continuation of the football program.

Earlier in the day, President Trevor Colbourn met with key boosters and told them that their efforts towards raising more than \$400,000 for the athletic program was a key factor in the football decision.

"We must recognize that the primary goal must be to put our athletic program on a sound financial footing," Colbourn said. "By your actions in so successfully contributing to that effort, you deserve the largest share of the credit for granting Gene McDowell and his athletes the opportunity to further demonstrate the improvement they showed on the football field this past season."

Christmas party is for everyone

All faculty and staff are invited to the annual Christmas open house, to be held in Admin third floor board room today from 2 to 4 p.m.

The invitation comes from President Trevor Colbourn with a reminder that the party will also honor retiring Vice President of Business Affairs John Philip Goree.

'TIL NEXT YEAR

Public Affairs staff would like to wish you all the joys that go with the holiday season and a New Year prosperous in health, friendship and success. The next UCF Report comes out Jan. 8.

Power outage no match for staff

The unexpected loss of the transformer supplying power to the Library one afternoon last week triggered a series of responses, not the least of which was the rallying power of University personnel in their determination to restore normal conditions.

With pops and bangs the 1,000 KVA transformer on the outside of the building burned out and breaker switches on the first floor shorted with explosive sounds. By coincidence, the automatic lights did not work. It had been checked the same morning.

Maintenance Superintendent Jim Clark said his electrical crew had the standby lights working within 15 minutes.

It was around 2 p.m. on Tuesday during finals week when the lights went out and the Library was filled with students.

"Everybody responded beautifully,"

said Associate Librarian Lyn LaBrake. "The Pep Squad (employees trained to respond to emergencies) and all our Library staff quickly reassured people using our facility that there was no fire but evacuation was required."

Officer Erich Andersen and Sergeant Arthur Stout were first on the scene from the campus Police Department. Ron Seacrist, director of Public Safety and Police, responded to the call because fire alarms, anywhere on campus, are monitored at Police Headquarters.

Assistant Chief Tommie Nelson stayed at headquarters to provide answers for telephone calls that poured in from on campus and off, including from a radio station. The county fire service also dispatched equipment that came to the scene but was not needed.

Clark's crew of electricians, Bob Rousselow, Joe Slade, Joe Napla-

chowski and Jerry Owens, moved on the scene immediately and manually made the solenoid switch kick in the standby generator. They quickly analyzed the problem with the big breaker switches and sent off campus for replacements.

Florida Power Corporation, that supplies all the campus with electricity, had people on the scene without delay and with UCF maintenancemen soon determined the big transformer had to be replaced.

Normally, Florida Power would have to send to its storage yards at Wildwood for a spare transformer of that size, but Clark suggested using one already stored at Orlando, the one to be installed at UCF's central heating and cooling plant to upgrade its capacity during the holidays.

500-plus degrees to be awarded Friday

More than 500 undergraduate and graduate degrees will be awarded during two commencement ceremonies Dec. 20.

Graduates in Business Administration and Engineering will be awarded their degrees at 10 a.m. Captain Charles D. Rowley, commander of the Naval Training Systems Center, Orlando, will deliver the address.

Paul Sneed, HRS district administrator in Orlando, will speak to graduates in the Arts and Sciences, Education, Health and Liberal Studies at 2 p.m.

Both ceremonies will be held in the UCF gymnasium.

Those planning to attend are asked to be seated at least 15 minutes prior to the scheduled starting time. Parking areas will be available, and UCF police will be on hand to assist in directions

CAPTAIN ROWLEY

PAUL SNEAD

Grant Opportunities

TRAVEL TO COLLECTIONS (NEH) — Grants of \$500 enable individual scholars to travel to use the research collections of libraries, archives, museums, or other repositories. Due Jan. 15.

PREVENTION RESEARCH ON MUTUAL SUPPORT APPROACHES WITH BEREAVED POPULATIONS (NIMH) — Due Feb. 1.

CANCER EPIDEMIOLOGY (NCI) — Support for pilot projects, testing of new techniques, or innovative or high-risk projects on a topic relevant to cancer etiology. Due Feb. 1.

ADOLESCENT FAMILY LIFE (HHS) — New Investigator Research Awards in topical areas related to the influences and consequences of adolescent premarital sexual behavior; the adoption option and parenting by the unmarried adolescent mother; and adolescent pregnancy services. Due Feb. 1.

LIFE SCIENCES INVESTIGATIONS IN SPACE (NASA) — Opportunity for participation in scientific investigations in the life sciences which utilize the capabilities of the Space Shuttle. Due Feb. 1.

ALCOHOL RESEARCH (ADAMHA) — New Investigator Research Awards for basic and applied research on all biomedical and psychosocial aspects of alcoholism and alcohol-related health problems. Due Feb. 1.

PRECISION MEASUREMENT GRANTS (NATIONAL BUREAU OF STANDARDS) — For experimental and theoretical studies of fundamental physical phenomena which may lead to improved or new measurement methods; the determination of important fundamental physical constants; the development of new standards for physical measurement and general research and development on basic measurement techniques and instrumentation. Due Feb. 1.

SUMMER FACULTY RESEARCH (AIR FORCE OFFICE OF SCIENTIFIC RESEARCH) — To conduct basic research at various Air Force laboratories in Engineering, Physics, Computer Science, Chemistry, Mathematics, Behavior Science, Operations Research, and Life Sciences, Biology and Biophysics. Due Feb. 1.

For further information, please contact Nancy Morgan or Bruce Furino, x2671.

Development leave forms now available

The Office of Academic Affairs now has forms available for non-tenure faculty who are in the bargaining unit who wish to take professional development leave.

Frank Juge, associate vice president /Academic Affairs, announces that the Professional Development Leave Committee has written criteria to make the leave available to librarians, instructors or other non-tenure earning faculty positions with three years of service. Eligibility is outlined in the UFF/BOR contract, Article 22.1, he said.

Proposals should be submitted to the Office of Academic Affairs for review by the committee no later than Feb. 14, 1986.

Women's Club plans gifts for children

Members of the UCF Women's Club will gather at the home of Mrs. Trevor Colbourn on Thursday, Dec. 19, at 10 a.m. for their annual holiday coffee. Items created by the Christmas craft interest group will be displayed.

As is traditional with the club, each member is requested to bring a gift-wrapped toy marked for "Boy" or "Girl" to be distributed to the Head Start Program at the University United Congregational Church.

Official memoranda

Publication of these memoranda and announcements about University policy and procedure constitutes official notice to faculty and staff

To: All Career Service Employees
From: Gary Meiseles,
Assistant to the Associate Vice President,
Human Resources
Subject: Salary Increases for Fiscal Year 1985-86

Final instructions were recently received from the Department of Administration detailing Career Service salary increases for fiscal year 1985-86.

Effective Jan. 1, 1986, employees, other than Certified Law Enforcement, may be eligible for the following types of adjustments, depending upon their specific class title:

1. Competitive Pay Adjustments (CPA). These are adjustments to the pay ranges. All employees will receive a competitive pay adjustment, which is a specific dollar amount for each job classification.

2. Critical Class Adjustments (CCA). These are adjustments that are applied to certain classes specified by the Department of Administration. These adjustments are in addition to the Competitive Pay Adjustment.

3. Competitive Area Differentials (CAD). These are salary additives approved by the Department of Administration for classes in a specific geographic region. Some CAD's in the state are being reduced, some are being increased, and some are being eliminated. Effective Jan. 1, the Competitive Area Differentials in use at UCF will be eliminated. Those employees presently earning this additive will have the amount of the CAD added to their base rate of pay to become part of their base salary.

4. Guaranteed Minimum Adjustment (GMA). These are adjustments which guarantee a minimum total salary increase of \$750 to all employees. If the total adjustment from items 1-3 above is less than \$750, the employee will receive a GMA in an amount sufficient to bring the total increase to \$750. To be eligible for this provision, the employee must have a current performance appraisal of "Achieves Performance Standards" or "Exceeds Performance Standards." Employees who do not have an appraisal in effect on Dec. 31, shall be considered as meeting "Achieves Performance Standards."

Adjustments are to be granted in the order listed above, and at the specific amounts provided by the Department of Administration. While it is true all pay grade minimums will be adjusted on Jan. 1, the specific salary adjustments are not calculated as a percentage of the minimum. Adjustments have instead been provided as a flat dollar amount.

Additional points of information:

• If an employee is to be awarded an incentive increase on Jan. 1, the incentive increase will be calculated upon the new salary resulting from the adjustments listed above.

• If the total adjustments from the Competitive Pay Adjustment, Critical Class Adjustment, and the Guaranteed Minimum Adjustment are not sufficient to bring an employee's salary to the pay grade minimum, an additional adjustment will be added to bring the salary to the new pay grade minimum.

• Employees on leave without pay will receive the appropriate adjustments upon their return to pay status. However, the adjustments may not be retroactive.

We are presently waiting for the final data tape from the Department of Administration and the Board of Regents. Upon receipt of the tape, we will make specific salary information available. The data should be available by the afternoon of Dec. 20 at which time employees may review a copy of the report in the Personnel Office. In order to determine your specific increase, you must know your official class title.

Certified Law Enforcement Classes

Effective Jan. 1, salary range minimums and steps will be increased by the Department of Administration. Certified Law Enforcement employees will receive an adjustment equivalent to the dollar amount of the salary step adjustment. This will not constitute a change in salary step, but is an adjustment within the salary step.

Specific information for each class and salary step is available for review in the Personnel Office.

To: All Departments
From: Dick Scott,
Director of Business Services
Subject: Forwarding Phones

This is a reminder that your phone should be forwarded to

another area if you are taking annual leave during the holidays. Simply pick up your phone and push #9, plus the extension you wish to answer your phone. If you come in and wish to receive your calls, push #9 and you will reactivate your extension.

During the regular semester all "Call Forwards" are cancelled by the Telecommunications operators from the University console each a.m. However, beginning Dec. 20 and continuing until Jan. 2 at 8 a.m., "Call Forwards" will not be cancelled by University operators. If you have any questions, please call the Telecommunications Office at x-2802.

★ ★ ★

To: All Employees
From: Mary Stines,
Payroll Department
Subject: 1986 Social Security Increase

Effective Jan. 1, 1986, the Social Security contribution rates will increase to 7.15 percent. Maximum covered gross will be \$42,000 with a maximum employee contribution of \$3,003 for the year.

★ ★ ★

To: All University Employees
From: Traffic and Parking Office,
Area Travel/Visitor Information Center
Subject: Christmas Holiday Schedule

The Traffic and Parking office will be CLOSED on Tuesday, Dec. 24. The office will be open from 8 a.m. to 4:30 p.m. the remainder of the holiday period.

The Area Travel office will be CLOSED Dec. 23 - Jan. 1. Individuals requiring Area Travel vehicles during this period MUST check them out prior to 2 p.m. on Dec. 20.

A reminder, too, that all parking regulations remain in effect during this period.

★ ★ ★

To: All Personnel
From: I.E. Knight,
Director, Records and Registration
Subject: State Employee Registration

This is to advise that all regularly admitted State Employees, Faculty, and Staff using fee waivers are scheduled to register from 6 to 6:15 p.m. on 1/3/86 for the Spring 1986 term.

★ ★ ★

To: All Department Heads
From: Joseph Gomez,
University Controller
Subject: Blanket Maintenance Invoices

It has come to my attention that there is no set policy for invoice payments on blanket maintenance agreements. Some departments want to give an approved Receiving Report for the entire year, while other departments want to approve each invoice as it comes in. The following policy will be in effect beginning Jan. 1, 1986. All invoices for payment of blanket maintenance agreements will be routinely paid against open purchase orders, unless a department specifically requests by memo (please include department's justification) to Finance and Accounting that invoices be sent to their respective departments for approval prior to payment. This policy is necessary to cut down on the processing time (as much as 2 weeks from Finance & Accounting) for payments to vendors.

In the event of a dispute with a vendor, please draft a memo to this department, with a copy to the vendor, stating: 1. The nature of the dispute (i.e. contracted service is not being performed — called technician 12/1, 12/3, and 12/6 and have not received service to date) giving specific complaints and, whenever possible, names of individual contacted at the vendor's place of business, dates and time of contacts. 2. Desired actions on the part of Finance and Accounting (i.e. temporarily suspend payment of invoices to vendor until problem resolved).

Once the problem has been resolved and normal invoice processing is again permissible, don't forget to notify this department immediately.

We appreciate your cooperation in this area and feel certain it will save many hours of our Accounts Payable staff's time, as well as greatly expedite payment to our vendors.

James L. Koevenig (professor/Biology) in art activities this fall, won Best of Category (watercolors) at the St. Johns River Festival. He also exhibited in the annual Florida Watercolor Society Show, the national Watercolor Society Annual Exhibition and the museum

director's choice exhibition at the Maitland Art Center. He judged the Mount Dora Art League annual fall show and the Leesburg Art League annual show.

Beth Barnes Crocitto (assistant professor/English) was an invited participant in the 1985 Florida Challenge Conference at the Airport Marriott. Participants were asked to solve a problem: How to develop a sense of community among Floridians and thus create Florida for Floridians.

John A. Crocitto (assistant professor/Education) attended the Florida Association for Counseling and Development convention at Orlando Oct. 27-29. He presented two 3-hour workshops, one alone and the other with Harriette Murhill, guidance program director, Orange County Schools.

Frances B. Smith (associate professor/Nursing) wrote an article, "Patient Power", printed in the November issue of the American Journal of Nursing.

REGISTRATION SCHEDULE SPRING SEMESTER 1986

ADVISEMENT AND COUNSELING

Currently enrolled students who fail to go through advisement will have their trial & advisement (T&A) schedules stamped "self-advised" at the discretion of their department.

Jan. 2-3 Orientation and advisement for new students and transfer students, and advisement for readmitted students not preadvised.

Regular Registration — By Appointment Only (Student Center)

Jan. 2	09:00 - 10:00	Returning Undergraduates
	10:00 - 11:00	Readmitting Undergraduates
	11:00 - 12:00/13:30 - 17:00	New Undergraduates
	18:00 - 19:00	Returning Graduates
	19:00 - 19:30	Readmitting Graduates
	19:30 -	New Graduates
Jan. 3	09:00 - 12:00/13:30 - 17:00	New Undergraduates
	18:00 - 18:15	*State Empl., Fac. & Staff
	18:15 - 19:00	Returning Post Baccs
	19:00 - 19:30	Readmitting Post Baccs
	19:30 -	New Post Baccs

Late Registration & Add/Drop (Student Center)

Jan. 6	15:00 - 17:00	Late Registration Only \$25 late fee
Jan. 8	10:00 - 10:30	Drop Only All
	10:30 - 12:30	Add/Drop 6, 5, 4
	14:00 - 14:30	Drop Only All
	14:30 - 17:00	Add/Drop 3 & all above who missed scheduled time.
Jan. 9	10:00 - 10:30	Drop Only All
	10:30 - 12:30	Add/Drop 2 & all above who missed scheduled time.
	14:00 - 14:30	Drop Only All
	14:30 - 17:00	Add/Drop 1 & all above who missed scheduled time.
Jan. 10	13:30 - 14:30	Drop Only All
	14:30 - 18:00	Add/Drop All classifications admitted on a 1st come/1st serve basis

Senior Citizens

Jan. 10 17:45 - 18:00

Senior Citizens register to audit. Senior Citizens who qualify for waiver of fees, must apply to Registrar's Office on Jan. 6-8 and until Noon on Thursday, Jan. 9.

*State Employees please note:

Trial and Advisement (T&A) Schedules for state employees registering for Spring Semester 1986 will be mailed to you during the week of Dec. 16.

*Classes begin Jan. 6, 1986 / *Pay no later than Jan. 10 - midnight

Over-Rides — College representatives designated to approve over-rides for Spring 1986 registration:

Power outage no match for alert UCF workers

UCF's electricians, ignoring the clock and helped by maintenance mechanics Bobby Bennett and Phil Therrien, had the breaker switches replaced by 7:30 p.m. and by then the replacement transformer and a crew of six had arrived, along with a crane capable of lifting several tons.

By half past midnight the old transformer was off-loaded and the new one in place and the power was back on. The cause of the failure was unknown, Clark said.

Jay Yost, Florida Power energy services coordinator, added, "Some times a failure is unexplainable." The company absorbs loss of the \$18,000 generator,

although Yost said it will go to the Wildwood yards for possible repair.

Yost and Clark pointed out with some satisfaction that only one building on campus was affected by the failure. This was due to a changeover to a loop system, a job that required months and was completed earlier this year. The purpose of the loop was to isolate just such a failure to one building.

Vice President of Business Affairs Phil Goree said the next day, "A letter of commendation for the electricians is definitely in order for their long hours and innovative repair work," and "We are working on a supplementary backup system for lights."

With many willing workers order was quickly restored

While the University's electricians held center stage during the power failure at the Library last week the emergency pulled other workers into increased and overtime activity.

Pete Cunningham and Tony Caro of the HVAC staff stood by all the time the repairs were being made to be ready when the power was restored to make sure that the computer-controlled air-handling system came back into operation automatically. It did. But they were there in case it didn't.

Ted Sander, the technician who services the telephone equipment on campus for the service company, ROLM, had his hands full. So did Ruth Colquitt, supervisor of University's phone system. The phone equipment is in the Library but it has its own standby power. Operators fielded a deluge of calls by people wanting information.

By coincidence, and not believed to

have been connected to the electric problem, during the middle of the night a water fountain on the third floor began leaking like an open tap. Doug Kucklick, the Library's computer technician, discovered water on the second floor when he arrived for work before 6 a.m. Wednesday.

Building Maintenance custodians who staff the 200,000 square foot Library, found when they reported for duty at 6 a.m. that they had to pitch in to a fast job of water vacuuming on two floors.

But Betty Brinson, Merle Boysel, Kim Kelly, Nellie Lockhart and their OPS crew, David Ingram, Alan Jones and Fredrik Miller, got the job done so quickly the Library opened its doors at 8 a.m. on Wednesday, only 15 minutes later than on a normal day, LaBrake said.

Enrichment program starts minorities 'thinking college'

Forty-six Orlando high school students received some inside information on preparing for college during their visit Dec. 10 to UCF in conjunction with the University's academic enrichment program for minorities.

The group — from Jones and Evans High Schools — represent students who were selected to take part in the UCF program, funded by the McKnight Center of Excellence based at Davis Armory in Orlando.

The seniors, juniors and sophomores from Jones and Evans will be joined in January by 36 additional students from Oak Ridge and Edgewater High Schools. The program will run through next April with monthly campus visits and cultural activities in the community.

Those on campus in December discussed motivation with Dr. Robert Belle, director of minority student services, who dwelt on positive factors for aca-

demic success. They heard from Renee Simpson, UCF assistant admissions director, on ways to prepare for college, and from Sabrina Gaylord, financial aid counselor, on financing a college education.

The UCF program, coordinated by Cecelia Rivers, high school and community college relations liaison officer, is now in its fourth year. Future sessions through spring include lessons on time management, study tips, role models, working with computers and introductions to various academic areas at the University.

Also included are a benefit concert, tentatively planned for February, attendance at a Broadway play in March, and a field trip to the Florida Solar Energy Center at Cape Canaveral.

Parents of participants will take part in a special program in early 1986 to bring them up to date on college admissions and financial aid.

Welcome aboard!

John C. Bridges (assistant professor/Sociology) got his PhD at Notre Dame, his MA at Bowling Green and his BA at UCF. He and wife, Susan, and daughter, Melinda, 14, live at Altamonte Springs. He likes music, sports and reading.

Arlene P. Stokes (clerk typist III/Library) used to manage and direct day care centers. She is a native of Allendale, Mich., and she and husband, K.K. Jr., have a son, Robert K., and they live at Orlando.

Pearlie Collins (clerk III/Registrar) came from Perry, FL., attended

Daytona Beach CC, and now lives at Orlando. She formerly worked for Air Forwarding Systems, Orlando. She has a daughter, Phebe, 17, and a son, Patrick, 15. Singing, playing a piano, sports, knitting and dealing with the public are things she enjoys.

Earnestine Gould (clerk typist III/Career Resources Center) was born in Sanford and lives at Oviedo. She last worked at Valencia CC. Her family includes Schantel, Christina, Julius and Jason and her hobbies

are music and typing.

Betty Anne Cotton (custodian/Creative School) is the mother of Erica, 12; Sharon, 8; Dominica, 5, and Shannon, 3. She was born in Sanford and lives at Oviedo.

Mikel D. Petty (systems analyst II/Computer Services) formerly worked for Red Lobster Inns as a programmer analyst. He earned a BS in computer science at California State U., Sacramento. He is a native of Columbia, S.C., and he lives at Orlando with wife, Barbara.

Running is his hobby.

Anna L. Nuckolls (senior secretary/Music) is a native of Sinton, Tex., and lives at Winter Springs. She holds a BSBA from UCF.

Kathleen Jaeger (audio visual specialist/FSEC) lives at Melbourne Beach, but started life at Buffalo, N.Y. She was formerly self-employed at Beach Studios-Multi media Design & Production Studio. She attended Art Institute of Pittsburgh and FSU and her hobby is photography. Her husband's name is Gene.

FOOD SERVICE HOLIDAY SCHEDULE

Potpourri Cafeteria

Wednesday, Dec. 18 - Meal plan ends after dinner meal. Cafeteria will close at that time.

Monday, Jan. 6 - Meal plan resumes. Cafeteria opens at 7 a.m.

Going up

The sign and the speed limit are both going up on campus streets. Painter Charlie Hofmann and Corporal Tom Gorbas show the first new one.

RENEE SIMPSON (seated) AND MARTI LYONS
... a new chairperson for Staff Council in midyear

Staff Council changes command, Simpson, Brock are new leaders

Marti Lyons, chairperson of the Staff Council, announced at the monthly council meeting last week that she was accepting a new position off campus and would resign as the presiding officer.

At her request the council held an election immediately to pick a chairperson and vice chairperson to complete the year until regular elections in the spring.

Renee Simpson, admissions officer II in Registration, was chosen unanimously to become the chairperson. Another unanimous vote named Winnie Brock, purchasing agent II, as vice chairperson to succeed Simpson.

Lyons, senior secretary in the Counseling Center, said she would leave UCF Dec. 20 to accept the post of executive

secretary of the First Methodist Church, Orlando. "I will truly miss all of you and the activities I've been involved in on campus."

She said, "I hope everybody will stay with the Staff Council and keep its needs before the administration and the state. Do not be afraid to speak out about your feelings. Just do it right."

She promised to help those who pick up the projects that the council has been involved in, even after she leaves, and advised that the council has the complete support of their advisor, Carol Surles, associate vice president for Human Resources and Personnel, and of University President Trevor Colbourn.

The rest of the meeting was taken up by committee reports on activities scheduled from January into June.

Employment Opportunities

UCF is an Equal Opportunity /
Affirmative Action Employer

For resume of current openings, call
Career Opportunity Line, 275-2778

For detailed information about any job and how to qualify, phone x2771 or ask at the Personnel Office in the Administration Building.

The following list provides job title, location, annual base pay and closing date to apply.

Third PC lab opens in Old Engineering for students, staff

Computer Services will open its third personal computer laboratory in the old Engineering Building this week, Director Bill Branch announced.

Room 331 has been equipped with 20 new IBM-PCs for use by students primarily, but also by faculty and staff, and it will be open from 8 a.m. until 2 a.m. with upper class student assistants majoring in Computer Science or Engineering available to help the computer users, he said.

A total of 50 machines are located in two lab rooms in Computer Center II and the new lab represents a 40 percent increase in machines available. Anyone University-connected may enroll in classes held by Computer Services at the start of each semester where instructors teach use of the machines and programs.

DO
YOU
KNOW?

UCF engineering grads perform outstandingly on professional engineering licensing exams. In a recent exam, 56.5 percent of UCF graduates passed the rigorous principles and practices test, compared to 44.1 percent of the total number of engineers examined statewide.
